In 1942, in a cold cell on death row in Mississippi, a 19-year-old young man named Claude Newman was awaiting execution. He had no religious background whatsoever — no church, no prayers, no faith. His life had been rough, and now it seemed it would end in darkness and despair.

But God had other plans.

One night, a beautiful lady suddenly appeared in his prison cell. She spoke to him with great love and told him to immediately send for a Catholic priest. Confused but moved, Claude obeyed.

When the priest arrived, something miraculous happened. Claude, who had never opened a Bible or received any religious instruction in his life, began speaking knowledgeably about deep Catholic teachings. He spoke about the Eucharist, mortal sin, confession, and other sacred truths with remarkable clarity and understanding — as if he had been studying the faith for years.

The priest was stunned. This was impossible by natural means.

On the day of his execution, Claude Newman was completely transformed. Instead of walking

On the day of his execution, Claude Newman was completely transformed. Instead of walking to the electric chair in fear or bitterness, he walked with radiant joy and peace. His face glowed with happiness. Before his death, he looked at his executioners and fully forgave them from his heart.

Many believe the “beautiful lady” who visited Claude that night was the Blessed Virgin Mary herself — a mother who came to rescue a lost soul in his darkest hour.
Claude’s story is a powerful testimony that no one is beyond God’s mercy. No matter how far gone we think we are — no matter our past, our sins, or our situation — Mary can lead us to her Son, Jesus Christ, who offers complete forgiveness and transformation.

Even on death row, a soul can be saved.

This true story continues to touch hearts decades later. It reminds us that heaven is fighting for every single soul.

Have you ever experienced God’s mercy in a powerful way? Feel free to share in the comments. 🙏

Belgian influencer Michiel Vandeweert has passed away at the age of 28 after living with a rare rapid-aging disorder that doctors once believed would claim his life by age 12.

Michiel was diagnosed with progeria as a child — a genetic condition that causes the body to age at an accelerated rate. The average life expectancy is around 15 years, yet he defied every prediction and became one of the oldest people in the world living with the disease.

He used his platforms on Instagram, YouTube, and Twitch to openly document his life, share his experiences, and connect with more than 90,000 followers. At just 15, he published a memoir titled Ik Ben Michiel. Earlier this year, he and his younger sister Amber (who also has progeria) were the subjects of a documentary called How To Be Alive: Amber and Michiel.

His family confirmed his death but has not publicly shared the exact cause.
Michiel was also a devoted fan of Belgian soccer club KRC Genk. The club paid a moving tribute, calling him "a loyal Genkie" whose courage and positivity inspired many. In a final wish, his funeral will be held at the club's stadium — the first of its kind on the pitch — and will be open to the public.

Free agent Bradley Beal has agreed to a two-year, $13.2 million deal to return to the Los Angeles Clippers, with a player option in the second season, Mark Bartelstein of Priority Sports tells Shams Charania.

Beal explored options in free agency upon declining his $5.6M player option, giving the Clippers more salary space to pursue deals as well, before the sides landed on his return in LA after the three-time NBA All-Star rehabbed from hip surgery that cost him most of last season.

TATAK ILONGGO
A DATA CENTER IN OTON? HERE'S WHY PEOPLE ARE STARTING TO ASK QUESTIONS
A proposed data center in Abilay Sur, Oton, Iloilo is stirring discussion online, with questions over its possible electricity and water use, environmental impact, and effects on the local community. The project is still proposed, but with a community assembly set for August 14, residents now have a chance to ask the questions that matter before anything moves forward.

AI Overview

This image features a satirical internet meme combining a picture of former Philippine President Rodrigo Duterte seated at a table during an informal gathering with a bottle of liquor and a C2 green tea chaser, captioned with "ICC Impirador Chaser C2."

- The meme playfully juxtaposes the acronym ICC (International Criminal Court) with "Impirador" (referring to Emperador Brandy) and C2 as a beverage mixer or chaser.
- The visual relies on a well-known style of Filipino shitposting and political humor circulating on social media platforms.

OPINION: A newly rehabilitated portion of EDSA developed potholes after just a few days of intermittent heavy downpour. http://... See more

OPINION
Business as usual?
In Barangay Prenza II in Marilao, Bulacan, a river wall meant for flood control costing P5 million, which was finished just two months ago, also collapsed last Monday amid the monsoon rains. The contractor, JB Construction, denied that the project is substandard, and instead blamed the collapse on water-saturated soil. But aren't such structural interventions supposed to be designed to withstand such a possibility? Was soil erosion not factored into the pre-construction assessment for structural integrity?
Marilao Mayor Jemina Sy told residents that the municipal government had ordered JB Construction to rebuild the river wall at its own expense.
It's infuriating to see a months-old rehabilitated road disintegrating after just a week of rain. Or, for that matter, a brand-new steel-and-concrete bridge collapsing from the weight of passing delivery trucks. If a bridge costing P1.2 billion can't handle trucks, why build it? You don't spend billions simply for the use of pedicabs and kuliglig.
Our governance system is not designed for long-term, strategic planning and implementation of development programs.
And because of the weakness of the rule of law, with the nation notorious for having the best justice that money can buy, the looters and their cohorts in the private sector get away with everything.
Potholes on a newly rehabilitated thoroughfare are just among the many consequences.

DINGDONG DANTES HONORS MARIAN RIVERA'S MANY ROLES FOR HER BIRTHDAY 💐💖

There are many ways to celebrate someone's birthday, but for Dingdong Dantes, recognizing all of Marian Rivera's roles in their family's lives was the perfect way to mark her special day. ❤️

Reminiscing about their fun moments as partners and parents to their wonderful kids, Dingdong celebrated Marian's birthday by paying tribute to the different hats she wears, as seen on his Instagram page last August 12.

In his heartfelt greeting, Dingdong said, "I've seen you take on so many roles, as a mom, a wife, a daughter, a friend, and give so much of yourself to each one. So proud of the person you've become, and excited for everything that's still ahead."

Marian, touched by the heartfelt tribute, responded to Dingdong's post with a simple yet affectionate, "🥹 love you."

⚠️BANTAY ILOILO!

Replica: Class A - Angelina" vs. "Replica: Class C - Control Tower – sarcasm at its finest 😅

One is a **giant replica of Angelina Loaf Bread**, while the historic **Old Iloilo Airport Control Tower**, which was once promised to be recreated as a replica, ended up as a **miniature interpretation** of the original.

The humor lies in the irony: **when they said "replica," perhaps we expected something that would bring back the presence and grandeur of the historic tower—not a small version of it.** 🏗️😉

Ginpadako ang tinapay, wala pa buhobuho! Ginpagamay ang panublion nga manggad, nagdamo pa ang buho!. 🍞🏛️🤫

"Iloilo: Where the Past Is Now a Miniature?"

Ilonggos are awake! We have learned from the dark chapters of our history, and we choose to be wiser – to choose the best leaders, make better decisions, and speak when something is wrong. We will not remain silent when truth needs to be heard. Above all, we carry our maragtas – our history – deep within our hearts. It reminds us who we are, where we came from, and what we must protect. That is why we value our heritage – not merely as remnants of the past, but as the soul of who we are and the legacy we must carry forward.

PS diin ang location:
Ang Angelina makita sa UFO. 🤣
Ang Mini-Control Tower sa IBP. 🤔

krazy JCD, inuulit ko RPN IS NO LONGER A GOVERNMENT-CONTROLLED NETWORK dahil private companies na ang may-ari kahit may naiwan silang 20% share.

also si dating dating PCOO Secretary Herminio Coloma ang nagsabi yan dun sa presscon nung 2011. hindi lang Solar Entertainment ang nabili ng 34% share kundi Benedicto Family under FEMI by 32% at ibang pang stocks by 14% with total of 80%, in other words majority wins ang mga private sector. and he declared "Radio Philippines Network is no longer a government corporation" dahil inuulit ko, PRIVATE COMPANIES NA ANG MAY-ARI

in 2013, binenta ng Solar ang 34% ownership share ng RPN sa ALC Group sa ilalim ng Nine Media Corporation na dating subsidiary ng Solar.
